### Driver, passenger killed as car goes out of control

A retired master chief petty officer died Sunday when the car he was driving spun out of control on the Virginia Beach-Norfolk Expressway and rolled over in a ditch.

The accident also killed a 22-year-old female passenger, state police said.

Trooper C.E. Bray said the driver, Jun R. Oculito, 45, of the 5000 block of Langston Court in Indian Lakes subdivision, was westbound about a half-mile west of Witchduck when he apparently lost control of his 1982 Datsun 280ZX.

Bray said the state police are asking anyone who may have seen the accident, which took place at 8:45 p.m. Sunday, to call them at 420-3410.

The name of the woman, who is in the Navy, was being withheld pending notification of next of kin, Bray said.
